Requestor's Position Summary: "The disputed fees should be paid in accordance with DWC Rule 134.403."

Amount in Dispute: \$602.56

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: Notice of Medical Fee Dispute was acknowledged however, no response submitted.

SUMMARY OF FINDINGS

Date(s) of Service	Disputed Services	Amount In Dispute	Amount Due
August 2, 2011	Outpatient Hospital Services	\$602.56	\$0.00

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403, titled *Hospital Facility Fee Guideline – Outpatient*, sets out the reimbursement guidelines for facility services provided in an outpatient acute care hospital.
3. 28 Texas Administrative Code §134.203, titled *Medical Fee Guideline for Professional Services*, sets out the reimbursement guidelines for professional medical services.
4. The services in dispute were reduced/denied by the respondent with the following reason codes:

Explanation of benefits dated August 25, 2011

- A – The recommended allowance on this line is based on TX fee schedule reimbursement guidelines which allows greater than the providers billed charges.
- B – Procedure code not separately payable under Medicare and or Fee Schedule guidelines.
- 1 – (97) The benefit for this service is included in the payment/allowance for another service/procedure that has already been adjudicated.

- 2 – (W1) – Workers Compensation State Fee Schedule Adjustment.
- 2 – This is a bundled or non covered procedure based on Medicare guidelines; no separate payment allowed.
- 3 – (94) Processed in Excess of charges.
- 4 – (96) Non-covered charge(s).

Issues

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?
3. Is the requestor entitled to reimbursement?

Findings

1. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables is not applicable.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code 36415 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$3.00. 125% of this amount is \$3.75
 - Procedure code 81003 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$3.16. 125% of this amount is \$3.95
 - Procedure code 85025 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$10.94. 125% of this amount is \$13.68
 - Procedure code 99199 has a status indicator of B, which denotes codes that are not recognized by OPPS when submitted on an outpatient hospital bill. Reimbursement is not recommended.
 - Procedure code 76000 has a status indicator of Q1, which denotes STVX-packaged codes; payment for these services is packaged into the payment for any other procedures with status indicators S, T, V, or X performed on the same date. This code may be separately payable only if no other such procedures are reported for the same date. These services are classified under APC 0272, which, per OPPS Addendum A, has a payment rate of \$83.50. This amount multiplied by 60% yields an unadjusted labor-related amount of \$50.10. This amount multiplied by the annual wage index for this facility of 0.9716 yields an adjusted

labor-related amount of \$48.68. The non-labor related portion is 40% of the APC rate or \$33.40. The sum of the labor and non-labor related amounts is \$82.08. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$82.08. This amount multiplied by 200% yields a MAR of \$164.16.

- Procedure code 62367 has a status indicator of S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. These services are classified under APC 0691, which, per OPPS Addendum A, has a payment rate of \$166.82. This amount multiplied by 60% yields an unadjusted labor-related amount of \$100.09. This amount multiplied by the annual wage index for this facility of 0.9716 yields an adjusted labor-related amount of \$97.25. The non-labor related portion is 40% of the APC rate or \$66.73. The sum of the labor and non-labor related amounts is \$163.98. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$163.98. This amount multiplied by 200% yields a MAR of \$327.96.
 - Procedure code Q9966 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
3. The total allowable reimbursement for the services in dispute is \$513.50. This amount less the amount previously paid by the insurance carrier of \$537.49 leaves an amount due to the requestor of \$0.00. No additional reimbursement can be recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
